

Environmental Policy

As a leading international Wind Turbine Erection Specialist and crane-hire contractor, Dan McNally Ltd, Windhoist Ltd, Windhoist Australia PTY Ltd, Windhoist ZA PTY Ltd and Windhoist Maroc S.A.R.L. are committed to protect the environment from the adverse impacts of it's business activities in our offices and on all our sites including client Wind Farm sites.

The company has implemented and maintains an Environmental Management System certificated to BS EN ISO 14001:2004.

Certification to this international standard demonstrates our commitment to the following measures in order to ensure that:

- environmental impacts resulting from past, present and future operations are effectively managed;
- ongoing compliance is maintained with environmental legislation and regulations and other related requirements subscribed to by the Company;
- environmental pollution is prevented;
- continual improvement in environmental performance is achieved and maintained.

We acknowledge that these aims can only be achieved through a planned and coordinated approach to environmental management.

This Policy provides a framework to establish, communicate and review objectives, targets, procedures and controls in relation to:

Waste Management

Energy and Resource Conservation

Management of Oil and Chemicals

Statutory Nuisance

Conservation and Heritage

This policy is subject to annual review and is communicated and to all persons, suppliers and contractors working for and on behalf of the Company.
